

## ***Ananda Pancha Karma***

### *Rejuvenate with Villa Ananda's Residential Pancha Karma Program*

Pancha Karma is Ayurveda's signature system for detoxifying and rejuvenating all of our bodily tissues and functions. Luxurious and in-depth purifying treatments provide the basis for health, rejuvenation and longevity. In our day to day life, our body and mind accumulate toxins causing deterioration, weakening our systems and opening the door for diseases to develop. Pancha Karma reverses these negative effects by cleansing the body of toxins, improving its functions and restoring our state of balanced health.

Includes customized nutrition, juice fasting, herbal teas, personalized Ayurveda therapies, tandem massage, Aromatherapy and Yoga Meditation, all within Villa Ananda's exquisite ambiance.

One week prior to your Pancha Karma, you begin the preparation process of Purva Karma (pre-Pancha Karma) which includes internal oleation, dietary adjustments and Triphala herbal supplement. This essential process aids in loosening toxins built up in the tissues for their further elimination from the GI tract. Before your arrival you will receive a simple set of instructions on how to follow the Purva Karma.

### *Diet*

---

The first 3 days of your Pancha Karma consist of a light fast of fresh vegetable juices and herbal teas for the specific organ system and body type along with a delicious Goddess Soup, an immune booster vegetable herbal puree. You will feel renewed as the digestive system is given a rest allowing for a deeper process of detoxification. Fresh fruits, spiced oatmeal, kitchari (mung beans and basmati rice), steamed and sautéed vegetables are introduced after the third day. All recipes are created for each individual body type. The food is prepared and served with love and gratitude for the healing that provides.

## *General Daily Treatments*
